Krystle Silverfox

In The Air

Opening: Thursday April 13, 4-7 pm

Artist in attendance

We are thrilled to present Krystle Silverfox - *In the Air*, her first solo exhibition with the gallery. Krystle is a Northern Tutchone interdisciplinary artist working, living and playing in the Yukon. Presented are new paintings and the installation *Ets'edegél'* (spear game).

Ets'edegél' celebrates the Arctic winter games and reflects the excitement of the "Snow Snake" Dene winter games. Sixteen carved cedar Snow Snake spears are arranged horizontally in the gallery at various heights and angles, suspended to appear as if in mid-flight.

Four paintings accompany this installation and combine landscape and deconstructed Ovoids for a personal collage-inspired presentation of the artist's home territories of Dawson and Pelly Crossing, Yukon. Silverfox worked from photographs they took in the two locations, interjecting the landscape with pastel colour blocks and floating Ovoids.
